# Cybersecurity Industry Associations

Association ↓	About
<a href="#"><u>AEHIS - The Association for Executives in Healthcare Information Security</u></a>	The Association for Executives in Healthcare Information Security (AEHIS) was launched in 2014 in order to provide an education and networking platform to healthcare’s senior IT security leaders.
<a href="#"><u>AISA - Australian Information Security Association</u></a>	Established in 1999, AISA has become the recognised authority on information security in Australia with a membership of over 6000 individuals and corporate sponsors across the country.
<a href="#"><u>APWG - Anti-Phishing Working Group</u></a>	APWG is the international coalition unifying the global response to cybercrime across industry, government and law-enforcement sectors and NGO communities.
<a href="#"><u>Auto-ISAC - Automotive</u></a>	An industry-driven community to share and analyze intelligence about emerging

<a href="#"><u>Automotive Information Sharing and Analysis Center</u></a>	cybersecurity risks to the vehicle, and to collectively enhance vehicle cybersecurity capabilities across the global automotive industry, including light- and heavy-duty vehicle OEMs, suppliers and the commercial vehicle sector.
<a href="#"><u>Black Cybersecurity Association</u></a>	BCA is a welcoming and inclusive non-profit organization focused on building community, mentorship, and job opportunities for underrepresented minorities in the cybersecurity space.
<a href="#"><u>CISO Executive Network</u></a>	The CISO Executive Network is a peer-to-peer organization dedicated to helping information security, IT risk management, privacy, and compliance executives to be more successful.
<a href="#"><u>CSA - Cloud Security Alliance</u></a>	The Cloud Security Alliance (CSA) is the world's leading organization dedicated to defining and raising awareness of best practices to help ensure a secure cloud computing environment.
<a href="#"><u>CLUSIT - Italian Association for Information Security</u></a> <a href="#"><u>CLUSIT - Italian Association for Information Security</u></a>	CLUSIT is open to any person and organization that shows an interest in IT security. Awareness, training, continuous professional updating and the exchange of information are the most effective tools to face the problems of IT security.
<a href="#"><u>CCMC-COE - The Cybersecurity Maturity Model Certification Center of Excellence</u></a>	Honest Broker of Cyber Capabilities that leverages standards, design expertise, and lessons learned from leading industry groups, standards bodies, public sector leaders and cyber communities of practice to improve and enhance the overall security and resilience of the supply chain for the defense industrial base and the U.S. Department of Defense.
<a href="#"><u>CompTIA Information Sharing and Analysis Organization (ISAO)</u></a>	The CompTIA Information Sharing and Analysis Organization (ISAO) is here to help, tailoring proactive threat intelligence and actionable analysis to meet the needs of technology vendors, MSPs, solution providers, integrators, distributors, business technology consultants, and their customers.
<a href="#"><u>FISSEA - Federal Information</u></a>	FISSEA is run by and for Federal government information security professionals to assist

<a href="#"><u>Information Systems Security Educators' Association</u></a>	Federal agencies in strengthening their employee cybersecurity awareness and training programs. FISSEA conducts an annual fee-based conference.
<a href="#"><u>CyAN - Cybersecurity Advisors Network</u></a>	CyAN aims to strengthen cybersecurity and fight against cybercrime through a multi-disciplinary approach, based on mutual trust among its members and on complementarity of their profiles and experiences.
<a href="#"><u>CSN - Cybercrime Support Network</u></a>	Cybercrime Support Network (CSN) is a public-private, nonprofit collaboration created to meet the challenges facing millions of individuals and businesses affected each and every day by cybercrime.
<a href="#"><u>Cyber Florida - at the University of South Florida</u></a>	Funded by the State but 'housed' at the University of South Florida, we work with all 12 institutions in Florida's State University System as well as other dedicated partners from the private and nonprofit sectors; local, state, and federal government agencies; and the US military to achieve our mission.
<a href="#"><u>Canadian Centre for Cybersecurity</u></a>	The Cyber Centre is the single unified source of expert advice, guidance, services and support on cyber security for government, critical infrastructure owners and operations, the private sector and the Canadian public.
<a href="#"><u>CyberNB - Canada's Epicentre for Cybersecurity</u></a>	CyberNB has developed an extensive national and international network of partners and collaborators in business, government and academia. A dynamic non-profit, we are a connector and multiplier for the collective advancement of Canada's booming cybersecurity sector.
<a href="#"><u>Cyber NYC - Building New York City's Cyber Future</u></a>	Cyber NYC is working with all the stakeholders in the NYC cyber ecosystem—corporations, venture capitalists, thought leaders, students, universities, public officials, and members of the cyber workforce.
<a href="#"><u>CyberOregon</u></a>	The Oregon Cybersecurity Advisory Council was created to to develop a shared vision for the establishment of a cross-sector Cybersecurity Center of Excellence, in collaboration with Oregon's cyber-related industries, private sector security practitioners, educational institutions, law enforcement and local

	institutions, law enforcement and local governments.
<a href="#"><u>UK Cybersecurity Association</u></a>	The UK Cybersecurity Association is for anyone who is interested in Cyber Security Issues. You could be an individual who is interested in getting a job in the industry to a large corporation who needs help and assistance to protect themselves from cyber threats.
<a href="#"><u>German Cyber Security Council e.V.</u></a>	Members of the association include large and medium-sized companies, operators of critical infrastructure, numerous federal states (e.g. North Rhine-Westphalia, Mecklenburg-Western Pomerania), major cities (e.g. Frankfurt) as well as experts and decision-makers in cyber security.
<a href="#"><u>CSIA - Cyber, Space &amp; Intelligence Association</u></a>	CSIA provides an environment for a vital flow of ideas between national security thought leaders in Government, Industry, and Congress focused Cyber, Space, and Intelligence challenges and opportunities.
<a href="#"><u>CyberTexas Foundation</u></a>	Since 1999, our founders have created and led the many successful advancements to the burgeoning San Antonio's Cyber Ecosystem; In April 2015, The CyberTexas Foundation was born. Our mission is to advance cybersecurity in San Antonio, Texas, through education, workforce development, and preparedness.
<a href="#"><u>Texas Cybersecurity Council</u></a>	The Texas Cybersecurity Council represents the acknowledgement that cybersecurity initiatives cannot rely on government alone. The members of the council come from all areas of the public and private sectors, state agencies, public and private higher education and private businesses in Texas.
<a href="#"><u>H-ISAC - Health Information Sharing and Analysis Center</u></a>	H-ISAC is a global, non-profit, member-driven organization offering healthcare stakeholders a trusted community and forum for coordinating, collaborating and sharing vital physical and cyber threat intelligence and best practices with each other.
<a href="#"><u>IAPP - International Association of Privacy Professionals</u></a>	IAPP is a resource for professionals who want to develop and advance their careers by helping their organizations successfully manage these risks and protect their data.

<b><u>Professionals</u></b>	
<b><u>IASAP - International Association of Security Awareness Professionals</u></b>	IASAP is comprised of member participants who are responsible for developing and implementing the security awareness programs for their respective organizations.
<b><u>ISA - Internet Security Alliance</u></b>	ISA's mission is to combine technology, public policy and economics to create a sustainable system of cybersecurity.
<b><u>Louisiana Cybersecurity Commission</u></b>	The Louisiana Cybersecurity Commission is a statewide partnership comprised of key stakeholders, subject matter experts, and cybersecurity professionals from Louisiana's public sector, private industry, academia, and law enforcement.
<b><u>MSRA - The Maritime Security Resilience Alliance</u></b>	The MSRA mission is to unify advancing global Maritime security resilience (physical, cyber, and cognitive – disinformation/misinformation) by accelerating information sharing, coordinated response and adoption of best practices supported by education.
<b><u>Mass Cyber Center - A Division of Massachusetts Technology Collaborative</u></b>	The MassCyberCenter was launched in September 2017 with a vision to enhance opportunities for the Massachusetts cybersecurity ecosystem to compete as the national cybersecurity leader while strengthening the resiliency of the Commonwealth's public and private communities.
<b><u>MMISAC - Mining and Metals Information Sharing Analysis Center</u></b>	The MM-ISAC facilitates the sharing of critical cyber security information through secure channels enabling member companies to benefit from this intelligence at a reasonable cost.
<b><u>IIA - The Institute of Internal Auditors</u></b>	The IIA is the internal audit profession's global voice, recognized authority, acknowledged leader, chief advocate, and principal educator.
<b><u>NCSS - The National</u></b>	The National Cybersecurity Society (NCSS) is committed to improving the online safety and security of the small business community

<a href="#"><u>Cybersecurity Society</u></a>	through education, awareness and advocacy.
<a href="#"><u>ND-ISAC - National Defense Information Sharing and Analysis Center</u></a>	ND-ISAC provides defense sector stakeholders a community and forum for sharing cyber and physical security threat information, best practices and mitigation strategies and is developed to serve as the Defense Industrial Base (DIB) sector's critical infrastructure protection operational coordination mechanism.
<a href="#"><u>ONG-ISAC - Oil &amp; Natural Gas Information Sharing and Analysis Center</u></a>	To protect our nation's critical infrastructure, the Oil and Natural Gas Information Sharing and Analysis Center (ONG-ISAC) was created in 2014 to provide shared intelligence on cyber incidents, threats, vulnerabilities, and best practices to enhance security in the industry.
<a href="#"><u>RH-ISAC - Retail &amp; Hospitality Information Sharing and Analysis Center</u></a>	RH-ISAC includes more than 155 Core Members (retailers, restaurants, hotels, gaming casinos, food retailers, consumer products, and other consumer-facing companies) sharing not only the threat information that they are seeing but their cybersecurity journey, as well, so others can learn, grow, and continue to mature.
<a href="#"><u>SCSA - Scientific Cyber Security Association</u></a>	SCSA, based in Tbilisi, Georgia, actively works on both Georgian and international scientific projects. It actively cooperates with foreign experts.
<a href="#"><u>San Diego CCOE - Cybersecurity Center Of Excellence</u></a>	The Cyber Center of Excellence is a non-profit dedicated to accelerating the San Diego region's cyber economy and positioning it as a global hub of cyber innovation.
<a href="#"><u>ISF - Information Security Forum</u></a>	Our research, practical tools and guidance address current topics and are used by our Members to overcome the wide-ranging information security challenges that impact their business today.
<a href="#"><u>Space ISAC - Information Sharing and Analysis Center</u></a>	The Space ISAC serves to facilitate collaboration across the global space industry to enhance our ability to prepare for and respond to vulnerabilities, incidents, and threats; to disseminate timely and actionable information among member entities; and to serve as the primary communications channel for the sector with respect to this information.

<a href="#"><u>NCSA - National Cyber Security Alliance</u></a>	NCSA builds strong public/private partnerships to create and implement broad-reaching education and awareness efforts to empower users at home, work and school.
<a href="#"><u>ST-ISAC - Surface Transportation Information Sharing and Analysis Center</u></a>	Sponsored by the Association of American Railroads (AAR) and operated by IIT, ST-ISAC collects, analyzes and distributes critical security and threat information from worldwide resources to protect each of its member's vital information and information technology systems from attack.
<a href="#"><u>NCC - National Coordinating Center for Communications</u></a>	11 federal government agencies and over 60 private sector communications and information technology companies routinely share critical communications information and advice in a trusted environment to support the NCC's national security/emergency preparedness communications mission.
<a href="#"><u>WISBSC - Wisconsin Small Business Cybersecurity Initiative</u></a>	The Wisconsin Small Business Cybersecurity Initiative (WISBCS) is a network of organizations committed to providing small and medium sized businesses with cybersecurity education and resources in Wisconsin.
<a href="#"><u>801 Labs Community Hackerspace</u></a>	801 Labs is a Salt Lake City, Utah based hackerspace created by local information technology, electronics, and information security enthusiasts. 801 Labs is a physical space designed to be a center for peer learning and knowledge sharing in the form of workshops, presentations, and lectures.
<a href="#"><u>ACFCS - Association of Certified Financial Crime Specialists</u></a>	ACFCS was born along with its Certified Financial Crime Specialist, CFCS, examination covering a robust AML training program in addition to addressing cyber-crimes, fraud, bribery, corruption, tax evasion, sanctions, terrorist financing, compliance programs, asset recovery, crypto crimes, and investigations.
<a href="#"><u>Aviation ISAC - Aviation Information Sharing and Analysis Center</u></a>	The only international cyber-threat sharing organization providing aviation-specific threat information to the aviation community.

<a href="#"><u>AISP - Association of Information Security Professionals</u></a>	We are an independent cybersecurity association that believes in developing, supporting as well as enhancing industry technical competence and management expertise to promote the integrity, status and interests of Information Security Professionals in Singapore.
<a href="#"><u>CDSA - The Content Delivery &amp; Security Association</u></a>	The Content Delivery and Security Association (CDSA) is the worldwide forum advocating the innovative and responsible delivery and storage of entertainment, software, and information content.
<a href="#"><u>CIS - Center for Internet Security</u></a>	CIS is a community-driven nonprofit, responsible for the CIS Controls® and CIS Benchmarks™, globally recognized best practices for securing IT systems and data.
<a href="#"><u>EI-ISAC - The Elections Infrastructure Information Sharing and Analysis Center</u></a>	The mission of the EI-ISAC is to improve the overall cybersecurity posture of SLTT election offices, through collaboration and information sharing among members, the U.S. Department of Homeland Security (DHS) and other federal partners, and private sector partners are the keys to success.
<a href="#"><u>MS-ISAC - The Multi-State Information Sharing and Analysis Center</u></a>	The mission of the MS-ISAC is to improve the overall cybersecurity posture of the nation's state, local, tribal and territorial governments through focused cyber threat prevention, protection, response, and recovery.
<a href="#"><u>Greater Houston Cybersecurity Council</u></a>	Cyber Houston and the Greater Houston Cybersecurity Council provide valuable, first-hand advice from leaders of the business community whose companies have benefited from implementing key steps for cybersecurity preparedness.
<a href="#"><u>Cyber Ireland</u></a>	Cyber Ireland brings together Industry, Academia and Government to represent the needs of the Cyber Security Ecosystem in Ireland. We aim to enhance the Innovation, Growth and Competitiveness of the companies and organisations which are part of the cluster.
<a href="#"><u>NJCCIC - New Jersey Cybersecurity &amp;</u></a>	NJCCIC is the State's one-stop-shop for cyber threat analysis, incident reporting, and information sharing and are committed to making New Jersey more resilient to cyber

<a href="#"><u>Communications Integration Cell</u></a>	making New Jersey more resilient to cyber threats by spreading awareness and promoting the adoption of best practices.
<a href="#"><u>South Carolina Cyber Association</u></a>	CYBERSC, the platform created to house the South Carolina Cyber Foundation and the South Carolina Cyber Association, is a volunteer-led, staff-managed initiative with a focus on expanding the conversation about cyber around the Palmetto state.
<a href="#"><u>CyberSmartNV</u></a>	CyberSmartNV is focused on the development of cybersecurity talent and resources within the State of Nevada. Our members are IT providers and professionals who believe that by coming together as focused organization we can effect meaningful change on the path toward building a mature and vibrant cybersecurity community in our state and ultimately our nation.
<a href="#"><u>National Cybersecurity Student Association</u></a>	The National Cybersecurity Student Association is a one-stop-shop to enhance the educational and professional development of cybersecurity students through activities, networking and collaboration.
<a href="#"><u>CyberWyoming Alliance</u></a>	The CyberWyoming Alliance is organized exclusively to promote alliances in local communities to share cybersecurity threat information and advocate for the cyber security societal benefit and welfare of Wyoming citizens, senior citizens, students and the business and nonprofit communities that surround them.
<a href="#"><u>E-ISAC - Electricity Information Sharing and Analysis Center</u></a>	The E-ISAC reduces cyber and physical security risk to the electricity industry across North America by providing unique insights, leadership, and collaboration.
<a href="#"><u>FS-ISAC - Financial Services Information Sharing and Analysis Center</u></a>	As the only global intelligence sharing community solely focused on financial services, FS-ISAC connects nearly 7,000 member financial institutions with 15,000 users in 70 jurisdictions.
<a href="#"><u>Georgia Cyber Center</u></a>	The Georgia Cyber Center is a unique public/private collaboration among academia, state, federal and local government, law

	<p>enforcement, the U.S. Army and the private sector. With two adjacent buildings totaling 332,000 square feet, the Georgia Cyber Center, located on the Nathan Deal Campus for Innovation, is designed to meet the growing need for cybersecurity talent in Georgia, the nation and across the globe.</p>
<p><u><a href="#">HEXATRUST France</a></u></p>	<p>HEXATRUST companies work together to promote and build trust in the Cloud and Cyber excellence. Dynamic, they contribute to French digital influence, are exported and aim for European and international growth.</p>
<p><u><a href="#">IACP LECC - Law Enforcement Cyber Center</a></u></p>	<p>The International Association of Chiefs of Police's LECC is designed to assist police chiefs, sheriffs, commanders, patrol officers, digital forensic investigators, detectives, and prosecutors who are investigating and preventing crimes that involve technology.</p>
<p><u><a href="#">IACR - International Association for Cryptologic Research</a></u></p>	<p>IACR is a non-profit scientific organization whose purpose is to further research in cryptology and related fields. Cryptology is the science and practice of designing computation and communication systems which are secure in the presence of adversaries.</p>
<p><u><a href="#">ICMCP - International Consortium of Minority Cybersecurity Professionals</a></u></p>	<p>ICMCP is achieving the consistent representation of women and minorities in cybersecurity through programs designed to foster recruitment, inclusion and retention – one person at a time.</p>
<p><u><a href="#">IMI - Identity Management Institute</a></u></p>	<p>IMI is the first and leading global certification organization dedicated to identity governance, risk management, and compliance.</p>
<p><u><a href="#">Infragard - Partnership between the FBI and the private sector</a></u></p>	<p>Infragard membership is for the owners, operators, and security directors and their staffs of the 16 U.S. national key asset and critical infrastructure sectors, which includes members of local, state, and federal law enforcement, as well as individuals who are involved in the security of and protected research at educational institutions.</p>
<p><u><a href="#">ISACA -</a></u></p>	<p>ISACA has more than 200 chapters established in over 80 countries worldwide which provide</p>

<a href="#"><u>Information Systems Audit and Control Association</u></a>	In over 80 countries worldwide which provide members education, resource sharing, advocacy, professional networking and a host of other benefits on a local level.
<a href="#"><u>ISC2 - International Information Systems Security Certification Consortium</u></a>	(ISC)2 is committed to helping our members learn, grow and thrive. More than 150,000 certified members strong, we empower professionals who touch every aspect of information security.
<a href="#"><u>ISSA - Information Systems Security Association</u></a>	ISSA is the community of choice for international cybersecurity professionals dedicated to advancing individual growth, managing technology risk and protecting critical information and infrastructure.
<a href="#"><u>IT-ISAC - The IT Information Sharing and Analysis Center</u></a>	The IT-ISAC is the definitive source for security information impacting the IT Sector. We have established a one-of-its kind forum which assembles some of the brightest minds from the world's leading IT companies to minimize threats, manage risk, and respond to cyber incidents impacting the IT Sector.
<a href="#"><u>MSC - Maritime Security Council</u></a>	The Maritime Security Council (MSC) – established in 1988 – is a non-profit, member-driven organization representing ocean carriers, cruise lines, port facilities and terminals, logistics providers, importers, exporters and related maritime industries throughout the world.
<a href="#"><u>Minority Cyber Inclusion Council</u></a>	The Minority Cyber Inclusion Council works to bridge the gap between industry, government and education in order to inform the minority community about the growing employment and training opportunities.
<a href="#"><u>CAMI - Cybersecurity Association of Maryland</u></a>	The Cybersecurity Association of Maryland, Inc. (CAMI) is a statewide, 501(c)(6) nonprofit organization established in 2015. CAMI is Maryland's only organization dedicated 100% to the growth of Maryland's cybersecurity industry.
<a href="#"><u>MEISAC - Media + Entertainment Information</u></a>	The Media and Entertainment Information Sharing and Analysis Center (ME-ISAC) operates as an initiative within the Content Delivery & Security Association (CDSA) for the

<a href="#"><u>Sharing Analysis Center</u></a>	Security & Security Association (SSA) for the benefit of the Trusted Partner Network (TPN).
<a href="#"><u>MTS-ISAC - The Maritime Transportation System Information Sharing and Analysis Center</u></a>	MTS-ISAC promotes and facilitates maritime cybersecurity information sharing, awareness, training, and collaboration efforts between private and public sector stakeholders.
<a href="#"><u>FIRST - Forum of Incident Response and Security Teams</u></a>	FIRST brings together a wide variety of security and incident response teams including especially product security teams from the government, commercial, and academic sectors.
<a href="#"><u>NCI - National Council of ISACs</u></a>	Sector-based Information Sharing and Analysis Centers collaborate with each other via the National Council of ISACs. Formed in 2003, the NCI today comprises 25 organizations.
<a href="#"><u>North Carolina Center for Cybersecurity</u></a>	Headquartered in Winston-Salem, the North Carolina Center for Cybersecurity, a 501(c)3 organization, accelerate regional economic development through applied cybersecurity to foster economic development.
<a href="#"><u>NTSC - National Technology Security Coalition</u></a>	Our mission is to serve as the preeminent advocacy voice for the Chief Information Security Officer (CISO) and to unite both public and private sector stakeholders around policies that improve national cybersecurity standards and awareness.
<a href="#"><u>OWASP - The Open Web Application Security Project</u></a>	Through community-led open source software projects, hundreds of local chapters worldwide, tens of thousands of members, and leading educational and training conferences, the OWASP Foundation is the source for developers and technologists to secure the web.
<a href="#"><u>RE-ISAC - Real Estate Information Sharing and Analysis Center</u></a>	The RE-ISAC is the designated sector-specific conduit for sharing information about potential physical and cyber security threats and vulnerabilities to help protect commercial facilities and the people who use them. The RE-ISAC helps build a more secure and resilient nation by meeting the sector's threat information sharing needs.

<a href="#"><u>REN-ISAC - Research Education Networks Information Sharing &amp; Analysis Center</u></a>	The Research and Education Networks Information Sharing and Analysis Center (REN-ISAC) serves over 650 member institutions within the higher education and research community by promoting cybersecurity operational protections and response.
<a href="#"><u>RMA - The Risk Management Association</u></a>	RMA is a not-for-profit, member-driven professional association serving the financial services industry. Its sole purpose is to advance the use of sound risk management principles in the financial services industry.
<a href="#"><u>SIA - Security Industry Association</u></a>	The Security Industry Association (SIA) is the leading trade association for global security solution providers, with over 1,000 innovative member companies representing thousands of security leaders and experts who shape the future of the security industry.
<a href="#"><u>SVCSI - Silicon Valley Cybersecurity Institute</u></a>	SVCSI, a non-profit organization, aims to develop, investigate, and promote the best security practices for dependable and secure systems and applications. With industry partners, we leverage our local communities including high schools, colleges, and universities in designing various cybersecurity activities for future cybersecurity workforce development.
<a href="#"><u>HSD - The Hague Security Delta</u></a>	The Dutch security cluster 'The Hague Security Delta' (HSD) is a network of businesses, governments and knowledge institutions that work together on innovative security solutions and knowledge development.
<a href="#"><u>EMR-ISAC - The Emergency Management and Response Information Sharing and Analysis Center</u></a>	The EMR-ISAC promotes critical infrastructure protection (CIP) by sharing CIP and emerging threat information with Emergency Services Sector (ESS) departments and agencies nationwide.
<a href="#"><u>UtahSAINT Organization</u></a>	UtahSAINT is a professional organization of technical and network security professionals

	throughout the State of Utah and beyond. The UtahSAINT organization was organized in 2001, and now has over 500 members.
<a href="#"><u>WaterISAC - Water Information Sharing and Analysis Center</u></a>	WaterISAC is the only all-threats security information source for the water and wastewater sector. We serve 2,600 water sector personnel across several hundred utilities and other organizations. Our utility members provide water and wastewater service to most of the United States, and we also serve utilities in Canada, Australia and New Zealand.
<a href="#"><u>WiCyS - Women In Cybersecurity</u></a>	WiCyS is the premier organization with international reach dedicated to bringing together women in cybersecurity from academia, research and industry to share knowledge, experience, networking and mentoring.
<a href="#"><u>ISRA - Information Security Research Association</u></a>	ISRA is active in spreading information security awareness and its members have conducted and delivered a large number of information security awareness seminars and campaigns across various geographical locations.
