The Best Cybersecurity Conferences In 2024.

DEF CON 32

Date: 08/08/2024

Location: Las Vegas, Nevada, United States

[Event Details](#)

DEF CON is an awesome cybersecurity event that provides unrivaled insights and networking possibilities. It brings together prominent experts, hackers, and professionals to exchange cutting-edge research, disclose flaws, and discuss the most recent risks. Participants acquire hands-on experience, compete in competitions, and learn from real-world security concerns. DEF CON provides a collaborative and imaginative environment, making it crucial for anybody working in cybersecurity to stay current, exchange ideas, and hone their abilities.

Chaos Communication Congress 2024

Date: 30/12/2024

Location: Berlin, Germany

[Event Details](#)

The CCC "Chaos Computer Club" is one of the oldest and most original Hacker Conferences happening in Europe. These events don't always take place, but when they do then you can be sure that they'll be special. If you have the opportunity we'd encourage you to attend these CCC Conferences.

TROOPERS 2024

Date: 19/12/2024

Location: Germany, Heidelberg

[Event Details](#)

TROOPERS is a well-known hacker event in Germany, known for its extraordinary combination of technical expertise, cutting-edge security insights, and a thriving network of cybersecurity specialists. Attendees benefit from hands-on workshops, fascinating discussions, and the chance to network with some of the industry's brightest minds. TROOPERS is a must-attend event for anyone looking for top-tier cybersecurity information and collaboration.

ShmooCon

Date: 12/01/2024

Location: Washington D.C., United States

[Event Details](#)

ShmooCon is an annual east coast hacker convention held in Washington, D.C. that combines cybersecurity lectures, demonstrations, and social contacts with a focus on hacking, information security research, and new technology developments.

Black Hat ASIA

Date: 16/04/2024

Location: Singapore, Singapore

[Event Details](#)

Despite becoming more mainstream, Black Hat still conducts some unusual and extremely technical seminars. This is the iteration of Black Hat in Asia, 2024.

Black Hat Europe

Date: 26/12/2024

Location: London, United Kingdom

[Event Details](#)

This is a must-attend for any Cybersecurity Professional in the United Kingdom. It's a classic event and whilst being more corporate than DEF CON, we'd certainly highly recommend it.

PhreakNIC

Date: 10/11/2024

Location: Murfreesboro, United States

[Event Details](#)

A classic hacker conference held in Nashville, Tennessee. The conference is a combination of technology, art, science, and politics. This place is well-known for its laid-back atmosphere and offers a wide range of activities that are related to hacking.

HOPE (Hackers On Planet Earth)

Date: 14/07/2024

Location: New York, United States

[Event Details](#)

HOPE is a conference organized in New York by the magazine 2600: The Hacker Quarterly that covers a diverse spectrum of speakers and subjects such as hacking, privacy, freedom of information, and digital rights. This is one of the oldest and most original cybersecurity events of all time. Highly recommended!

THOTCON

Date: 01/10/2024

Location: Chicago, United States

[Event Details](#)

SShhh! The location is kept top-secret! This is, for sure, one of the best hacker events to attend in Chicago. Totally recommended!

Positive Hack Days

Black Hat USA

Date: 03/08/2024

Location: Las Vegas, United States

[Event Details](#)

In spite of the fact that it is growing more common, Black Hat USA continues to host a number of unconventional and highly technical courses. Black Hat 2024 will take place, as ever, in Las Vegas.

RootedCON

Date: 11/03/2024

Location: Malaga, Spain

[Event Details](#)

A conference on technology and cybersecurity that was conducted in Spain and was well-known for its technical depth and wide variety of themes. It was attended by specialists in the corporate and underground security sectors.

Hack.lu

Date: 15/08/2024

Location: Luxembourg, Luxembourg

[Event Details](#)

An cybersecurity event in Luxembourg, Hack.lu is known for its unique blend of serious security discussions and more playful, experimental fun sessions. It's a fantastic place for security researchers to showcase new findings and we highly recommend it!

44Con

Date: 12/09/2024

Location: London, United Kingdom

[Event Details](#)

This is one of the better security events in London in 2024. The event has been running for several years and has notable security researchers and speakers.

CypherCon

Date: 04/04/2024

Location: Milwaukee, United States

[Event Details](#)

CypherCon is an annual cybersecurity and hacking conference held in Milwaukee, Wisconsin. It brings together the world's foremost specialists in information security and computer science. To assist attendees develop their talents, the program offers concentrated discussions, hands-on exercises, and team challenges. CypherCon also emphasizes the significance of cyber security and best practices in the digital world. Participants can network with their peers, learn from one another, and remain current on current trends. CypherCon has received high praise for being a fun event that serves to prepare the next generation of experts.

LeHack

Date: 23/05/2024
Location: Moscow, Russia
[Event Details](#)

Positive Hack Days is a cybersecurity and hacking conference held in Moscow, Russia, every year. It is Russia's largest offensive security conference and one of the largest in Europe. The conference brings together researchers, security professionals, hackers, and corporate representatives to discuss the latest cybersecurity trends and achievements. Workshops, challenges, and competitions are also part of the program. Interesting fact: the conference is hosted in an abandoned factory each year, and thousands of people from over 60 nations participate.

Nullcon

Date: 14/03/2024
Location: Berlin, Germany
[Event Details](#)

Nullcon is an annual cybersecurity and hacking conference hosted in India that brings together the industry's finest and brightest from around the world. It is India's largest of its type, with an amazing roster of seminars, speeches, and networking events. Nullcon distinguishes itself by including interactive workshops, hands-on exercises, ethical hacking challenges, and a CTF tournament. It also serves as a venue for security researchers to present their results.

BSides Events

Date: 01/01/2024
Location: Locations, Multiple
[Event Details](#)

Security BSides conferences, which take place across the world, are community-driven events that provide a forum for security professionals to talk, share expertise, and collaborate on a variety of information security topics in an open atmosphere.

Date: 05/07/2024
Location: Paris, France
[Event Details](#)

LeHack is a cybersecurity and hacking conference held annually in Paris, France. It includes a wide range of training sessions, panels, and seminars about hacker culture, cryptography, and other topics. It's an excellent place to learn about cyber security and other hacker-related issues. Attendees have the opportunity to interact with and learn from industry professionals, network with like-minded individuals, and discover fresh solutions to the most difficult security concerns. It is also an opportunity to share cyber security ideas, experiences, and solutions.

c0c0n

Date: 04/10/2024
Location: Kochi, India
[Event Details](#)

The c0c0n conference, hosted in India, is a well-known yearly event focused on cybersecurity, ethical hacking, and digital forensics, promoting awareness of cyber dangers and countermeasures among business and governmental sectors.
