Asia-Pacific Information/Cyber Security Meetups

A community contributed consolidated list of InfoSec meetups in the Asia Pacific region. Pull requests encouraged.

Meetups by Region

Australia

Victoria

Meetup Name	Typically on	About this Meetup	Locale
SecTalks Melbourne	Last Wednesday, Monthly	SecTalks Melbourne is a non-profit session for technical security talks, and hands-on challenges. A forum to discuss technical (in)security stuff and share our thoughts. On the last Wednesday of each month at 6:00pm - 7:30pm.	Southbank/CBD, Melbourne.
OWASP Melbourne	Best Effort	OWASP (https://www.owasp.org) is a not-for-profit entity, that ensures the project's long-term success. Similar to many open-source software projects, we are volunteers from around the world, open to anyone interested in learning more about software security.	Southbank/CBD, Melbourne.
Ruxmon Melbourne	Last Friday, Monthly	Each month two speakers from the local security community will share their knowledge on a security topic ranging from introductory/beginner level to more advanced topics. Presentations are followed up with a catchup at a local pub. If you're interested in IT Security and related topics, looking to learn a bit more, or want to meet up with fellow security people, then you should definitely check out a meeting.	CBD, Melbourne.
AllSec	First Wednesday, Monthly	All Sec is an informal community-driven meetup for those looking to learn new skills and meet like-minded people from the infosec industry. The infosec space is vast, and we want to encourage people to share their diverse knowledge and experience through presentations, technical demos and hands-on challenges.	CBD, Melbourne.
CyberSpectrum Melbourne	Last Thursday, Monthly	In collaboration with the Bay Area Software Defined Radio (SDR) group, the Melbourne SDR meetup will serve as a forum to exchange knowledge and ideas related to Software Defined Radio (the software and hardware), and generally aim to get people excited about all the applications that can be realised with the technology. At each	CBD, Melbourne

Meetup Name	Typically on	About this Meetup	Locale
		meetup, attendees will have the opportunity to present their work/ideas to the group. Engineers, enthusiasts, hobbyists and people of all experience levels are welcome, no matter what your software/hardware background. Everyone is welcome to submit their ideas/presentations to the pool. For each meetup, a fixed number will be chosen to fit the format.	
Melbourne DevSecOps User Group	Best Effort, Fortnightly/Monthly	A Meetup to help break down the barriers between devs, ops and security teams in our big bad world of automation!	CBD, Melbourne
Cyber Riskers Meetup	various, Monthly	Passionate about these two words: Cyber & Risk? Thinking about how you are going to keep up with cyber trends and latest talk of the town? Yes, that's us Cyber Riskers! We love our get-togethers and meetups with like-minded people. We meet once every quarter; we enjoy good food & drinks, sharing ideas, experiences, contacts, anything cyber risk. Don't underestimate the power of networking	CBD/Southbank, Melbourne
Last Tuesday of the Month Club (LTOTM)	Last Tuesday, Monthly	LTOTM is a mix of professionals from: Information Security, Technical, IT Risk, IT Audit, Business Continuity/Disaster Recovery, Lawyers & Law Enforcement. The club provides an opportunity to network and have a few hours out to relax and socialise with peers. LTOTM maintains a strong no sales stance, there will be no death by PowerPoint, we may have a brief (<10 min) informal discussion on a topic of interest, not a sales pitch.	CBD, Melbourne
CyRise Sessions	Unknown	Do you have a cyber security startup? Or an idea for a cyber security solution? CyRise Sessions is for current and potential cyber security founders, and key players in the cyber startup sector. We care about nurturing and expanding the ecosystem through building great relationships and sharing helpful content. CyRise, Australia's only cyber security accelerator program, is a partnership between Deakin University and Dimension Data.	CBD, Melbourne
Identity and Security Meetup Melbourne	A Tuesday, Monthly	Our members represent a cross section of software developers, solutions architects, security practitioners, project managers and more, who share an interest in topics relating to digital identity, identity management, online security, and more.	CBD, Melbourne

New South Wales

Meetup Name	Typically on	About this Meetup	Locale
SecTalks Sydney	Third Tuesday, Monthly	SecTalks Sydney is a non-profit community that runs monthly sessions for technical security talks, and hands-on security challenges! A forum to learn & discuss technical (in)security stuff. We have a mix of sessions for both beginners and security professionals. Visit the Meetup group for more details.	CBD, Sydney
Sydney 2600	Monthly	2600 Meetings exist as a forum for all interested in technology to meet and talk about events in technology-land, learn, and teach. Meetings are open to anyone of any age or level of expertise.	CBD, Sydney
CryptoAUSTRALIA Digital Self-Defence & Privacy	Monthly	CryptoAUSTRALIA Digital Self-Defence & Privacy empowers citizens to embrace technology to help preserve their right to privacy. Our group achieves this by providing practical information on tools, processes and policy (need to think about appropriate terms) allowing citizens that are new to privacy concepts to quickly adopt and adapt to a privacy environment.	CBD, Sydney
(ISC)2 Sydney Chapter	Random	This is (ISC)2 Sydney chapter group inviting all professionals to come and join us for our professional meetups	CBD, Sydney
Sydney Cyber Security for Control Systems	Random	This meetup dedicated to all professionals involved in Cyber Security for Automated Processes and Control Systems including security for Operating Technology (OT), Industrial Control Systems (ICS), SCADA Systems, Transportation Systems, Building Control Systems (BCS), and even emerging Industrial Internet of Things (IIoT) systems. Our purpose is to connect the professionals in the Greater Sydney area with real interest in or responsibility for the cyber security of these systems.	Sydney

Meetup Name	Typically on	About this Meetup	Locale
Sydney Cybersecurity Meetup	Random	A group for those interested in networking opportunities, informative discussions and educational sessions on all things cyber. Our Meetup is designed to fit all experience and skill levels from novice to Cyber Warrior. So whether you're in business, academia, or government, we're looking forward to meeting you at our next event!	Sydney
FWOTM	First Wednesday of the Month	Social drinks and get-to-know the other professionals in your industry.	Sydney region (location visible to members)
NepSec Sydney	First Thursday of the Month	NepSec Sydney started from Jan,2019 as an initiation of helping all the Nepalese people residing in Sydney,Australia to get started into the amazing field of information security. We realised that there were very less number of infosec professionals originating from Nepal here in Australia so this is there just to fill this gap and increase this number as well as create a good network of Nepalese security enthusiasts. Sessions delivered in Nepalese + English mix so as to facilitate the attendees to understand the context properly. For Nepalese, if you wan't to join our slack, please message our facebook page	Sydney, Often at Bugcrowd Sydney's Office
Zero Days Sydney	Third Tuesday of each month	This meetup is targeted to cover topics within the sphere of Security across the Information Technology domain. They welcome anyone who is interested in their meetup; be that a passing interest, a professional interest or somewhere in between.	CBD, Sydney
Identity and Security Meetup Sydney	A Thursday, Monthly	Our members represent a cross section of software developers, solutions architects, security practitioners, project managers and more, who share an interest in topics relating to digital identity, identity management, online security, and more.	CBD, Sydney
Newcastle CyberSecurity Group	Last Friday of each month	We're a regular meetup talking about all things cyber security. We're open and welcoming to anyone with an interest in the security space.	Newcastle

Queensland

Meetup Name	Typically on	Frequency	About this Meetup
SecTalks Brisbane	Fourth Thursday	Monthly	SecTalks Brisbane is a non-profit session for technical security talks, and hands-on challenges. A forum to discuss technical (in)security stuff and share our thoughts. On the 4th Thursday of each month at 6pm.
