Registration Open!

Join us in Washington DC, USA Oct 30 - Nov 3, for leading application security technologies, speakers, prospects, and community, in a unique event that will build on everything you already know to expect from an OWASP Global Conference.

Designed for private and public sector infosec professionals, the two-day OWASP conference followed by three days of training equips developers, defenders, and advocates to build a more secure web. Join us for leading application security technologies, speakers, prospects, and the community, in a unique event that will build on everything you already know to expect from an OWASP Global Conference.

CycloneDX v1.6 Introduces Support for Attestations of Compliance with Any Standard, Improving Compliance and Scalability for Consumers and Vendors of Third Party Software

Kayla Heard-Rising, December 6, 2023

Requiring Proof of Compliance: In the Real World, Scale Escalates Quickly.

Almost every organization must wrestle with security compliance for their software. There are standards, policies, and guidelines from every conceivable source: government agencies, industry groups, open-source foundations, international organizations, and other standards bodies.

Spotlight: Salesforce

Salesforce is the world's (#)1 customer relationship management (CRM) platform. Our cloud-based applications for sales, service, marketing, and more don't require IT experts to set up or manage — simply log in and start connecting to customers in a whole new way.
