## Backup Google Workspace

80% of all data loss is caused by human error. So even if your files and emails are in the cloud, they can be still easily accidentally or maliciously deleted and lost.

cloudHQ offers real-time data protection and backups of all your data in the cloud.

- ✓ Backup all Google Workspace accounts in your organization
- ✓ Backup your personal Gmail or Google Drive accounts
- ✓ Backup other cloud apss used in your org
- ✓ Real time data protection

## Sync and Migrate to Google Workspace

Even if your organization might be using one primary cloud platform like Google Workspace, your employees, partners, and clients will use other cloud apps: like Evernote for note-taking, Dropbox for sharing with clients, Salesforce for CRM, Basecamp for project management.

On other hand, you might need to migrate large amount of data from other cloud services such as Dropbox, Box, etc.

1. cloudHQ will sync and integrate all these cloud apps and storage services with your Google Workspace accounts
2. cloudHQ provides fast reliable migration solutions without any interruption to your business

## Export Emails to Google Sheets

The data sitting in your Gmail emails can be a goldmine.

Do you need to process invoices / receipts from your email? Do you have a lot of emails with leads from a lead provider, order confirmations and purchase orders from your online shops, sales stats?

This app will parse and export your email messages and parsed data to Google spreadsheet.

- Export order and shipping notifications
- Export email leads
- Parse emails to get bounced email addresses
- Share emails (like open issues) via Google Sheets with your team
- Backup (archive) email messages
- Import data from your emails into your database or CRM!

[LEARN MORE](#)

## Save Emails as PDF

[Save Emails as PDF](#) lets you easily save Gmail emails as a PDF document on your computer's hard drive. Our service works in just 1 click, includes any attachments, and you're done!

- ✓ Package multiple emails as one PDF document,
- ✓ Create a ZIP file with all emails in PDF,
- ✓ Encrypt your emails with password
- ✓ Export emails as text or HTML file
- ✓ Create a PDF with all email messages related to your project, and more ...

## Gmail Label Sharing

Sharing many emails at once is annoying! Rather than forwarding one at a time, just save them all to a Gmail label and share it with anyone who has an email address with [Gmail Label Sharing](#). cloudHQ Gmail Label Sharing allows you to share emails and labels and collaborate on these emails with other Gmail users in the same way as you would share folders in Google Drive.

It's great for:

1. Human resources to discuss incoming candidate submissions
2. Sales teams to discuss clients or potential clients
3. Customer service teams to discuss how to handle a client issue
4. Law firms to discuss cases with everyone on the team

[LEARN MORE](#)

[LEARN MORE](#)

## Multi Email Forward

[Multi Email Forward](#) saves you a ton of time when you want to forward large number of emails or to migrate/transfer your emails to a new account. Just click all the emails that you want to send, and they'll get forwarded all at once. This is a great solution for:

- ✓ onboarding of new employees,
- ✓ forwarding receipts to your HR or maybe to your accountant,
- ✓ migration of your emails,
- ✓ forwarding emails to your CRM,

and more...

## Save Emails to Google Drive

It's surprising that Google hasn't created an integrated or reliable way to quickly save your emails in Google Drive yet, but we've got you covered until they do.

[Save Emails to Google Drive](#), you can save your Gmail emails to your Google Drive in just 1 click!

[LEARN MORE](#)

## Email Templates

[Gmail Email Templates](#) extension will supercharge your Gmail: you will be able to create and share beautiful email templates using our entire pre-designed HTML template library, or you can upload your own templates from MailChimp.

Great for:

- ✓ Newsletters
- ✓ Private announcements
- ✓ Sales
- ✓ Marketing
- ✓ Support

## Free Email Tracking

This [Chrome extension](#) allows you know when your emails are opened in real-time. Now you can find out when your emails are read!

- ✓ Unlimited email tracking
- ✓ An email tracking dashboard
- ✓ Real time and SMS notifications
- ✓ Reminders
- ✓ Link tracking

[LEARN MORE](#)[LEARN MORE](#)

## Auto BCC for Gmail

Do you ever wish that you could just always blind copy another email address when you send emails to a specific person or CRM? Maybe it's to yourself on another email account, or maybe it's to your assistant, or maybe it's even your partner!

Whoever you want to blind copy, this [free service](#) does exactly that for you: auto BCC your emails and rest assured that whoever should have a copy of your email, does. Automatically.

## Meeting Scheduler for Gmail

This [Chrome extension](#) lets you send out a link so that other people can choose a meeting time with you based on your availability. It works directly from Gmail, and is 100% integrated with your Google Calendar.

Say goodbye to 'email tag game' for scheduling appointments - do everything with one email and one click.

[LEARN MORE](#)[LEARN MORE](#)

## MailKing

With [MailKing](#) you can create and send an email campaign right from your own Gmail account!

- ✓ Higher open rates
- ✓ Upload recipients via CSV or excel files
- ✓ Personalize mass emails (merge tags)
- ✓ Reminders
- ✓ FREE email templates
- ✓ Real time export of campaign stats to Google Sheets
- ✓ Opens and clicks tracked...

## Gmail Auto Follow Up

Want to get a 52% increase in response rate from your cold outreach emails? Get through to your sales prospects, and automate your Gmail outreach. With [Gmail Auto Follow Up's](#)

intuitive approach built right into your Gmail, your email messages will automatically be sent for you.

- Up to a 52% increase in responses from outreach emails
- Schedule up to 10 follow-up stages
- Use a mail merge to send bulk email messages
- Track email replies, opens, and clicks
- Free email templates to choose from
- The ability to link back to your CRM, like Salesforce

[LEARN MORE](#)

[LEARN MORE](#)

## Gmail SMS & Text Alerts

With [Gmail SMS alerts](#) is an EXCELLENT solution for anyone, because we all have urgent emails where we would love SMS text alerts. You get to setup automated SMS text alerts for:

1. Emails that you receive from specific email addresses,
2. Emails that you receive that have specific keywords in them, or
3. On an email that you sent, and are waiting back for a reply.

And once you get your SMS text alert, you could be anywhere. The full content of your email will be available right from your phone. You don't even need to check your email account.

## Schedule Email

[Schedule your email](#) to send at a later date and time.

Need to send an email to your client or boss, but it's 1am? No worries.

Just schedule it to send first thing in the morning while you catch up on your beauty sleep :-)

[LEARN MORE](#)

[LEARN MORE](#)

## Free Email Tracking Blocker

Stop spammers dead! Anyone who's tracking your emails, will be sorely disappointed.

Do you know that almost all the emails you receive are tracked to see when you open them and when you click on the links in them?

With [Free Email Tracking Blocker](#) they will never be able to know when you opened your email - and you can control who and when they can see that their email is opened or not

## Save Emails to Dropbox

Our Chrome Extension, [Save Emails to Dropbox](#) will quickly and reliably save your emails in Dropbox.

- ✓ Autosave all emails from a label to Dropbox

- ✓ Convert emails to PDF, HMTL, or text
- ✓ Backup all your emails to Dropbox
- and more...

## Save Emails to OneDrive

[Save Emails to OneDrive](#) will quickly and reliably save your emails to OneDrive.

- ✓ Autosave all emails from a label to OneDrive
- ✓ Convert emails to PDF, HMTL, or text
- ✓ Backup all your emails to OneDrive
- and more...

## Send Email to SMS

This [Chrome extension](#) will let you send your email to someone's phone number via SMS text.

If something is important, don't text someone 'check your email', just send your email to that person's mobile number and get faster results!

And you can also receive **SMS text alerts with actual email content** if you receive an email from selected receipts.

## Gmail Time Tracker

Gmail Time Tracker is time logging service to help you track your reading and writing in the email, so that you can include it in your billable hours.

Any time you open an email, you'll be able to log how much time you've spent reading it, or writing it. You can then export that information into a spreadsheet, and include that in your billing hours.

This is an **\*\*excellent\*\*** service for any professionals who charge hourly like:

- ✓ lawyers,
- ✓ virtual assistants,
- ✓ coaches,
- ✓ contractors, etc.

## Gmail Email Links

Need to share email messages on Skype, Slack, or any other messaging service?

Our [Gmail Email Links](#) extension can create a secure Dropbox-style link for your email message: Just select an email message, click on 'Email Links' icon, and you will get a secure and sharable link for your message.

You can use this link to share your email message on Slack, Skype, SMS, or any other messaging service.

## Gmail Email Links

[LEARN MORE](#)

Rename Email Subjects

[LEARN MORE](#)

## Rename Email Subjects

Have you ever received an email whose subject is very unclear, or gave you a different idea and you want to label it properly so that you can search for it more easily later on?

This [extension](#) will help you stay organized by letting you rename email subject headlines.

✓ The sender won't know that you've changed the email subject (unless you reply back with the new subject line).

✓ It can be used to break up a long conversation thread.

✓ It's easy to remember what idea you thought of when you received an email by renaming it with that idea to refer back to later on. :)

## Video Email for Gmail

Do you want to stand out in your emails?

Or maybe you're too busy to type an email, but a video might be right up your alley?

[Video Email](#) is 100% free, and allows you to record your video, overlay multiple filters on it, and send it directly through Gmail- all with 3 taps: record, upload, and send.

[LEARN MORE](#)

[LEARN MORE](#)

## Screencast Recording

[Screencast Recording for Gmail](#) is THE BEST free video screen capture option out there.

It captures your voice, and anything you want to show that's on your screen. It uploads directly as a link in your Gmail to your screencast video.

Use it for:

✓ education,

✓ customer service,

✓ sales,

or anything that you want to share...

## Gmail Notes

Add annotations on your emails to remember something, or to coach how to craft a good email.

If emails were letters, Gmail Notes would be sticky post-it notes.

Highlight a section of an email that you received, and make a note about it. Keep it for yourself or email it to someone else.

No more having to respond to someone by saying 'see edits below in red', or wishing that you could write a note on an email. Now, you can just use Gmail Notes and never lose a thought.

Perfect for:

- ✓ Editors
- ✓ Sales Managers
- ✓ Project Managers
- ✓ Customer Representatives
- ✓ Anyone who wants to make a mental note about an email that they received.

## Gmail Screenshot

[Gmail Screenshot](#) is a lightweight Chrome extension that will let you snap a picture of anything you see on your screen so that you can do the following on top of your image:

- ✓ Write text
- ✓ Use arrows
- ✓ Pixelate sensitive information
- ✓ Include rectangular boxes or lines

## Save Emails to Box

Our Chrome Extension, [Save Emails to Box](#) will quickly and reliably save your emails in Box.

- ✓ Autosave all emails from a label to Box

✓ Convert email messages to PDF, HMTL, or text

✓ Backup all your emails to Box

and more...

[LEARN MORE](#)

[LEARN MORE](#)

## Backup emails to Amazon S3

[Backup and Archive Emails to Amazon S3 and Glacier](#) can reliably and quickly backup and archive your emails Amazon S3 - in just 1 Click! Back up and archive:

- ✓ 1 email at a time,
- ✓ A selection of emails,
- ✓ All your emails, and
- ✓ For admins: all your teams' emails.

## HTML Editor for Gmail™

Do you have HTML skills?

Do you wish you could customize Gmail emails to include things like:

- ✓ Tables
- ✓ Charts
- ✓ Call-to-action buttons
- ✓ Side by side images (great for social media logos!)

If you answered yes to any of the above, do we ever have a [treat for you!](#)

[LEARN MORE](#)

[LEARN MORE](#)

## Good Morning - New Tab

Good Morning gives you a tranquil and positive way to start your day anytime you open a new tab in your browser.

Daily inspiration is abound with images that gently remind you to center yourself, along with an inspirational daily quote to help you focus on the bigger picture of your day ahead.

## Snooze Email

Snooze of an email will temporarily remove them from your inbox - it will come back to the top of your inbox at the time you set it.

You can snooze any message that you want to follow-up with later, whether you received it or sent it, all without leaving your browser or Gmail!

Snoozing in Gmail helps you...

- ✓ Remember to pay upcoming bills
- ✓ Follow-up with clients that don't reply
- ✓ Stay on top of emails you won't need till later

[LEARN MORE](#)

[LEARN MORE](#)

## Pause Gmail

Do you ever wish that you could pause your Gmail for a few hours just so that you could get some darn work done?

With [Pause Gmail](#) you can mute your inbox. This extension prevents new emails from showing up in your inbox until you're ready for them.

## Gmail Youtube

This [is free service](#) which lets you choose from any YouTube video, and easily embeds it directly into the body of your Gmail email.

## Gmail Snippets

Do you find yourself having to write the same emails over and over?

We know that it's too time consuming, so we created [Gmail Snippets](#).

Now, you can compose an entire email just by typing 3 words! Simple shortcuts lets you save time and be more productive.

Gmail Snippets are great for common email conversations like: introductions, thank yous, signatures, product pitches, or common Q&As.

Each snippet you create will have a keyboard shortcut word. Simply type the shortcut into your email message compose window, and it will be replaced by the contents of your snippet.

[Gmail Snippets](#) saves you so much time, and it helps you have a consistent message without wasting time from your daily activities.

## Gmail URL Link Preview

Create beautiful web URL link previews when composing your email.

Share visually appealing previews, or the full contents of a URL link directly in your email.

This includes private website URLs like: unpublished blog posts, pre-market listings for real estate, private legal contracts, and anything else that has a weblink!

## Gmail Tabs

Set Gmail labels as tabs.

Google automatically organizes Gmail labels alphabetically...

Which can be time-consuming when scrolling through your labels in order to find the one you want.

Cut the time you spend sorting through Gmail labels with our newest (and free!) email productivity tool, Gmail Tabs!

Gmail Tabs lets you customize Gmail to give you clear visibility (and easy access) to:

1. Your favorite Gmail labels
2. Common Gmail search queries, like: receipts with attachments, or emails from your customers or boss

## Email Reply Status

'Email Reply Status' status helps you stay on top of your inbox and keep track of unanswered emails are you having a hard time remembering which emails you've replied.

[LEARN MORE](#)[LEARN MORE](#)

## Get My Receipts

Get My Receipts will find all your emails that have receipts in them, with greater than 96% accuracy, and automatically add them into a spreadsheet for you. All you need to do is simply click on 'Get My Receipts' in your Gmail inbox, and let the tool do all the work for you. It'll even organize your receipts by the following columns in a spreadsheet:

- Date
- Payment
- Taxes
- Merchant
- Subject line
- Email text
- Email PDF of each receipt

## Gmail Reverse Conversation

How to reverse your Gmail conversation threads to show in chronological order? Do you keep getting confused with how Gmail presents your email conversation threads?

That's why we created Gmail Conversation Thread Reversal so that you can see the latest email of a conversation on the top of your email thread, instead of at the bottom.

[LEARN MORE](#)[LEARN MORE](#)

## Gmail Button

Did you know that you have 67% more of a chance that someone will click on a button in your email, than if you sent them a simple link?

With Gmail Button, you can create a button easily in 30 second.

## Gmail Message Preview

Gmail Message Preview lets you read your inbox email messages without actually opening them. You will have the following choice of views:

- 1st line of your email
- First 2 lines of your email
- First 3 lines of your email
- Entirety of your email

[LEARN MORE](#)

## Email Signature Generator

Most professionals realize they need to have a professional looking email signature so that people know how to reach you and so that people understand what you can offer them. Otherwise, you risk losing opportunities everytime an email is sent without your information, or your company's information.

[Email Signature Generator](#) lets you to design and customize your own Gmail signature.

## Free Gmail™ eCards
