Empowering Cyber Security Practitioners & Teams

Launched in 1989 as a cooperative for information security thought leadership, SANS Institute helps organizations mitigate cyber risk by empowering cyber security practitioners and teams with training, certifications, and degrees needed to safeguard organizations and advance careers.

World's Best Instructors

SANS instructors include the industry's most accomplished professionals, having battled in the cyber security trenches firsthand, to enable the immediate and effective application of your coursework.

Hands-on Training

Our curriculum, with practical, hands-on exercises, includes the most comprehensive array of courses and post-training a rich ecosystem of resources and access to a community of the world's most experienced cyber-professionals.

Most Valued Certifications

GIAC Certifications provide the highest and most rigorous assurance of cyber security knowledge and skill available to industry, government, and military clients across the world.

Multiple Training Options

The learning experience at SANS starts with letting cyber students train when, where and how they need to—live or on-demand, in-person or virtual.

Play Now! 2023 SANS Holiday Hack Challenge Open for Play!

Our annual gift to the cybersecurity community has officially opened for play. The 2023 SANS Holiday Hack Challenge is completely free, open to all skill levels, and the best entries could win a free SANS training course or a NetWars Continuous 2 subscription! This year, put AI-assisted cybersecurity skills to use - both offense and defense - and leverage AI voice synthesis, Space Packet Protocol analysis, and much more.
