⭐⭐⭐

50k+ 5 star reviews

10+ paths

To obtain skill or job proficiency

95+ modules

From a diverse pool of instructors

800+ labs
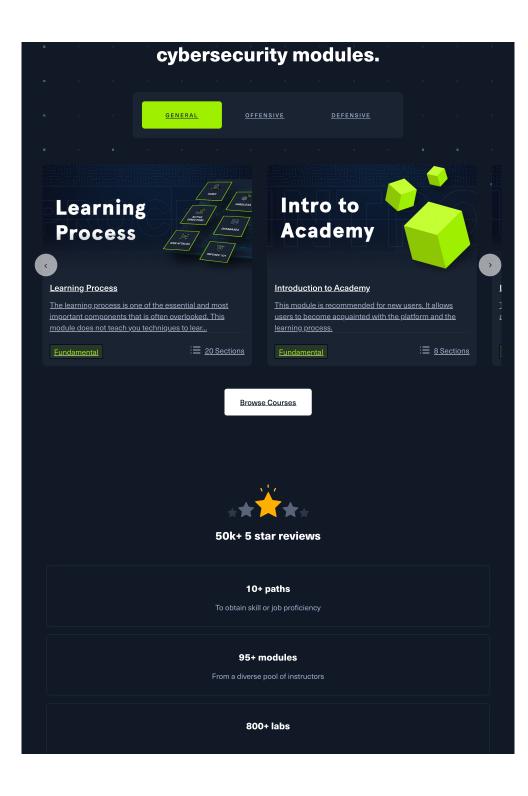

We immediately started using HTB Academy after we signed up and found that the modules challenge the students to work hard to successfully reach an end goal. Now, we have students getting hired only a month after starting to use HTB! We're excited to see this trend continue the rest of the academic year.
